Teachers	18201	10440
PTR	22	18
Classrooms	4861	5378
Average Classroom Ratio	46	34
Average School Size	103	139

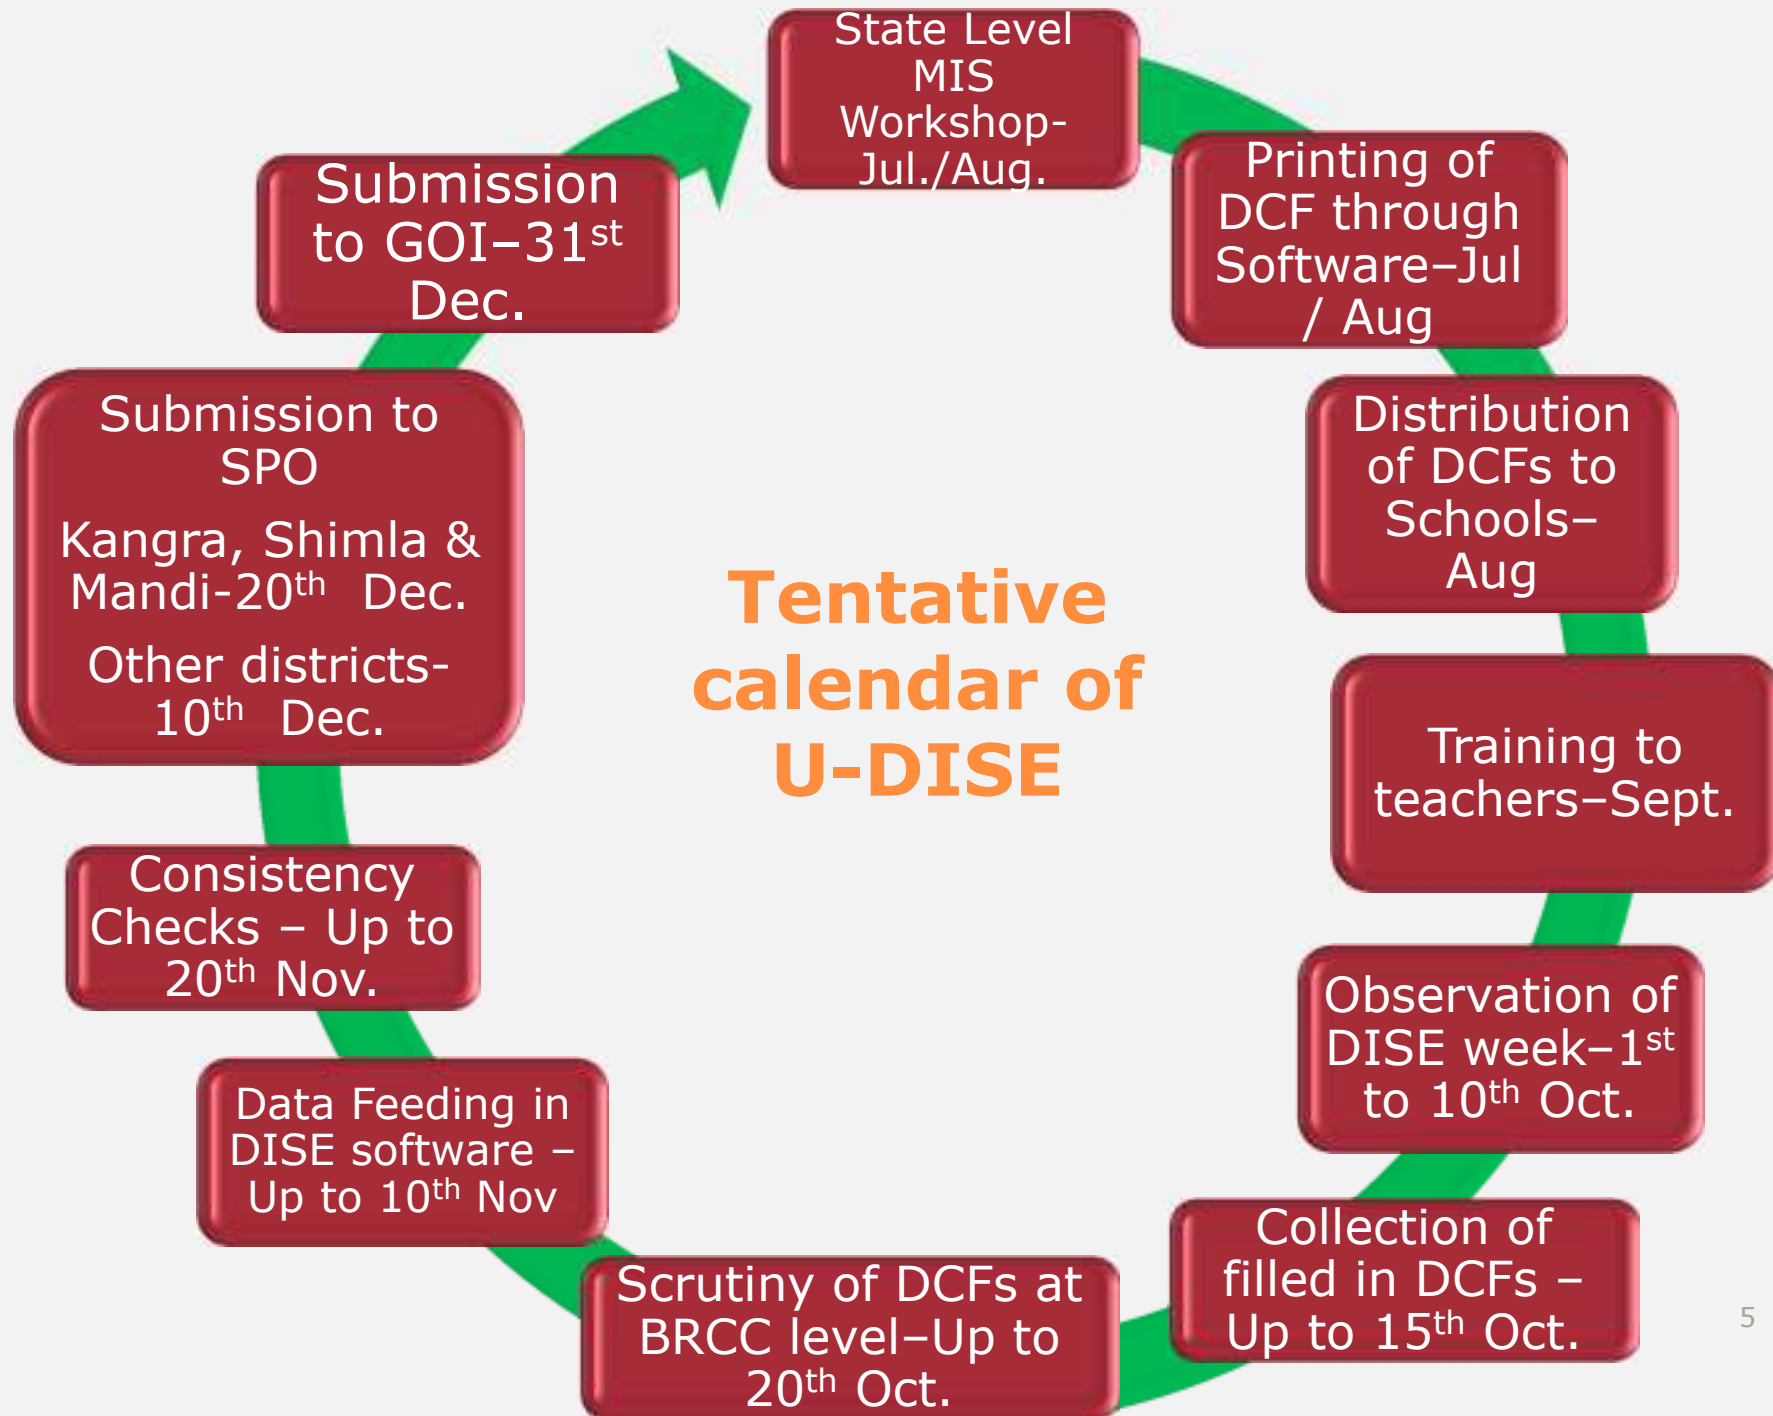

Implementation of DISE

- **DISE was introduced in four districts of the state during the year 1996-97 to collect data of primary classes under DPEP Programme.**
- **From the year 2002-03, all the districts were covered under DISE under SSA.**
- **In the year 2007-08 under RMSA, SEMIS was introduced to collect data of secondary and Hr. Secondary and both systems were looked after by the same MIS staff of SSA.**
- **Unified-DISE have been implemented from the year 2012-13 to collect the data from class I-XII.**

Implementation of DISE

- All the scheme like ICT, IEDSS, Model School and RMSA were brought under one umbrella of RMSA and Integrated AWP&B for the year 2013-14 of RMSA have been prepared using UDISE data as on 30th Sept., 2012.
- UDISE Code of new schools, schools covered under ICT and schools approved for strengthening of secondary school have been used in the monitoring website of RMSA. This has removed duplication of schools in ICT schemes.
- We have faced the problem of teachers because in secondary schools/units, teachers taught classes from 6th to 10th and its very difficult to categorize them in upper primary and secondary. However, all the schools were instructed to divide them in a ration of 3:2. But the position of teachers have not matched with the details of teachers. This can be improved by giving proper instruction in future.
- The UDISE has minimized double efforts involved in SEMIS and DISE and also minimized data redundancies of teachers and infrastructure/facilities in the schools.
- UDISE will be improved over the period of time by the guidance of GOI and efforts of NUEPA.

Tentative calendar of U-DISE

5% Random Sample Checking

- In order to check and authenticate the accuracy of DISE data, every year 5% Random Sample Checking is got done through an independent agency in two districts on rotation basis.
- During the year 2012-13 also 5% Random Sample Checking of DISE Data was conducted in two districts viz. (Shimla & Solan). The final report of the independent agency has been shared with GOI and also shared with all the districts.
- The concerned districts have been asked to take care of all the suggestions and recommendations of the Independent Agency while capturing the data for the year 2013-14.
